

Position Permanent, Full Time
Job Title Security / BMS / ICT Controls Engineer
Location London Bridge

THE ROLE

An excellent opportunity has arisen within Hilson Moran's Smart Buildings Group based in our London office for a highly motivated BMS and Controls Professional to join this expanding team.

Working for a varied client base, the role primarily includes the concept, design, procurement and delivery of Building Management Systems and automatic control systems in a wide variety of high-profile new-build, fit-out and refurbishment projects.

The role encompasses all stages of project delivery, from the design stages, through monitoring of the subsequent construction and commissioning phases, to ensure successful implementation of the BMS or Smart Building System. The role includes the preparation of technical specifications and drawings and will also involve some site-related activities, such as inspection and witness-testing of installed systems.

THE INDIVIDUAL

In addition to a strong BMS background, experience in the Integration and Convergence of other systems such as Access, Security, Fire, and Client IT networks on both a masterplan and building level is required.

PACKAGE

Competitive salary, 25 days holiday, performance related bonus, pension scheme, private healthcare, life assurance, Employee Assistance Programme and more.
