

Technical Building Performance Engineer

We are seeking to employ a Technical Building Performance Engineer to work in our London office

The Role

An excellent opportunity has arisen within Hilson Moran's Facilities Management group. We support our clients in all aspects of engineering services operation, from maintenance and plant replacement to building refit and refurbishment. We cover everything from handover to delivery of Net Zero Carbon strategies, lifecycle plans, upgrade projects, energy efficiency advice and independent technical support; wherever and whenever it is needed.

We'd like to Hear from You If You Have Experience with

- Maintenance auditing of building services
- Preparation of lifecycle plans and review with clients
- Being a confident client facing person capable of chairing meetings
- Have a passion for the development of energy and carbon consultancy (whether they currently have the skills or not)
- Have the ability to prepare condition and feasibility reports in an organised and structured manner
- Working with our wide range of specialist consultants as part of delivering to our clients a truly connected and best in class advice

Interested?

Please forward your CV along with a covering letter outlining your suitability for the role and your salary / package expectations to careers@hilsonmoran.com
