

# Senior/ Principal Sustainability Consultant – Energy Modelling

We are seeking to employ a Senior Sustainability Consultant to work in our London, Cambridge, Farnborough or Manchester office.

## The Role

An excellent opportunity has arisen within Hilson Moran's Sustainability Group who are based in 4 Hilson Moran's offices for an experienced sustainability / energy consultant to join our expanding team of dedicated specialists.

We would like an applicant to be capable of leading advanced energy modelling and supporting clients with their net zero carbon aspirations. This role would include not only preparing models for operational energy assessments but working with clients and architects at the early stage of design to support building design.

It is key that the applicant has knowledge of dynamic thermal modelling, and has experience modelling detailed systems in developments.

## We'd like to Hear from You If You Have Experience with

- Thermal / Energy modelling of buildings
- Building physics
- Understanding of the building certification process
- Operational Energy Analysis
- Design for Performance

Level 5 Assessor  
Planning and design advice  
Renewable energy feasibility studies  
Report writing – energy statement, climate change  
Liaising with clients

Desirable to have knowledge  
Rhino  
Grasshopper/ Ladybug

You will have the opportunity to work on variety of high profile developments throughout the UK and overseas including commercial offices, education, retail, mixed use and residential schemes.
